Dvar Torah

How do we know that Yaakov Avinu had angels that he could send on errands? The Medrash (Berashis Rabbah 75:5) states that R' Chama bar Chanina said, "5 angels arrived to assist Hagar, the maid servant of Sarah Emainu. If that was the case for Hagar, how much more so for the people who Hashem loves? Says R' Yose, Yosef was the youngest brother and three angels came to assist him, how much more so would they come for his father.

Topic: Getting ready for Shabbos

Every person should arise early on Friday to begin preparing for Shabbos, and begin his preparations immediately after Shacharis. However, Torah sessions that regularly follow the morning prayers should be completed first (including school, yes bummer!!!)???

Every person should help in some way prepare at least one thing in honor of Shabbos. Preparations should be done with happiness and enthusiasm. One should imagine he is preparing for a royal guest. How much more excited we should be to welcome the holy Shabbos. It is written that the sweat one works up in preparing for Shabbos has the same powers to wipe away sins the way tears do.

Riddle of the Week

A farmer challenges an engineer a physicist, and a mathematician to fence off the largest amount of area using the least amount of fence. The engineer made his fence in a big circle and said it was the most efficient. The physicist made a long line and said that the length was infinite and that fencing half the earth was the best. The mathematician laughed at the others and revealed his design. What was the design that made him win the challenge?

The *first* person to go to Shalom Frenkel with the correct answer, will receive a bottle of soda.

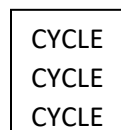

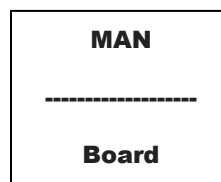

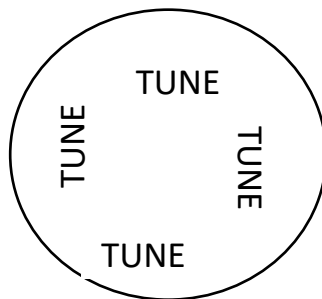

Joke(s) of the Week

I got fired from my job as a taxi driver. It turns out that people don't like it when I go the extra mile for them.

How did I escape Iraq? I ran.

I worked out almost every day this week. I almost worked out on Sunday and I almost worked out on Monday. I almost worked out on Tuesday and I almost worked out on Wednesday. I almost worked out Thursday and I almost worked out on Friday. So I tried to work out every day. Which didn't work out every day.
