### **Story: A True Story From October 7<sup>th</sup>: Chapter 1:**

By: **Moshe Goldwasser**

Back in the days before the world went completely off the rails, an Israeli Jew from Bnei Brak named Yehuda, was driving on the Tel Aviv-Jerusalem highway, when he suddenly noticed a car sitting on the side of the road with its hazard lights blinking. Inside the car were two parents, a child, and a dog. He pulled up behind a car and got out to see what the problem was. “We ran out of gas,” the father explained. “We’ve been waiting here for half an hour. You’re the first car that stopped.” “Don’t worry about a thing,” Yehuda reassured them. “I’ll drive over to the closest gas station at Motza and bring you back enough gasoline so you can get back on the road.” Yehuda gave him his phone number, they gave him theirs, and he promised to return as soon as possible. He was back shortly afterward with a jerry can full of gas. They offered to pay for the help, but Yehuda refused. “It’s on the house.” He said. “What do you mean? You drove to the gas station; and then, you went out of the way and you spent money on me. What do you mean, ‘it’s on the house?’” the father said. “Thank you for wanting to pay, but I did a mitzvah and I don’t want money for doing it!”

### ***Topic: Hilchos Shabbos: Reheating dry foods***

Completely cooked, roasted, or baked solid foods may be reheated in the manner in which in which they were originally prepared (meaning, cooking a cooked item, and baking a baked item). However, one may not directly place the item on directly on a flame or blech. It is forbidden to reheat a food in a manner not previously employed. Therefore, one may not bake or roast a cooked item, or cook (in a liquid) originally baked or roasted.

Sponsorship is available. See Shalom Frenkel or Shmuel Schiff.

## **Joke(s) of the Week**

Q: What do you do if you get cold?

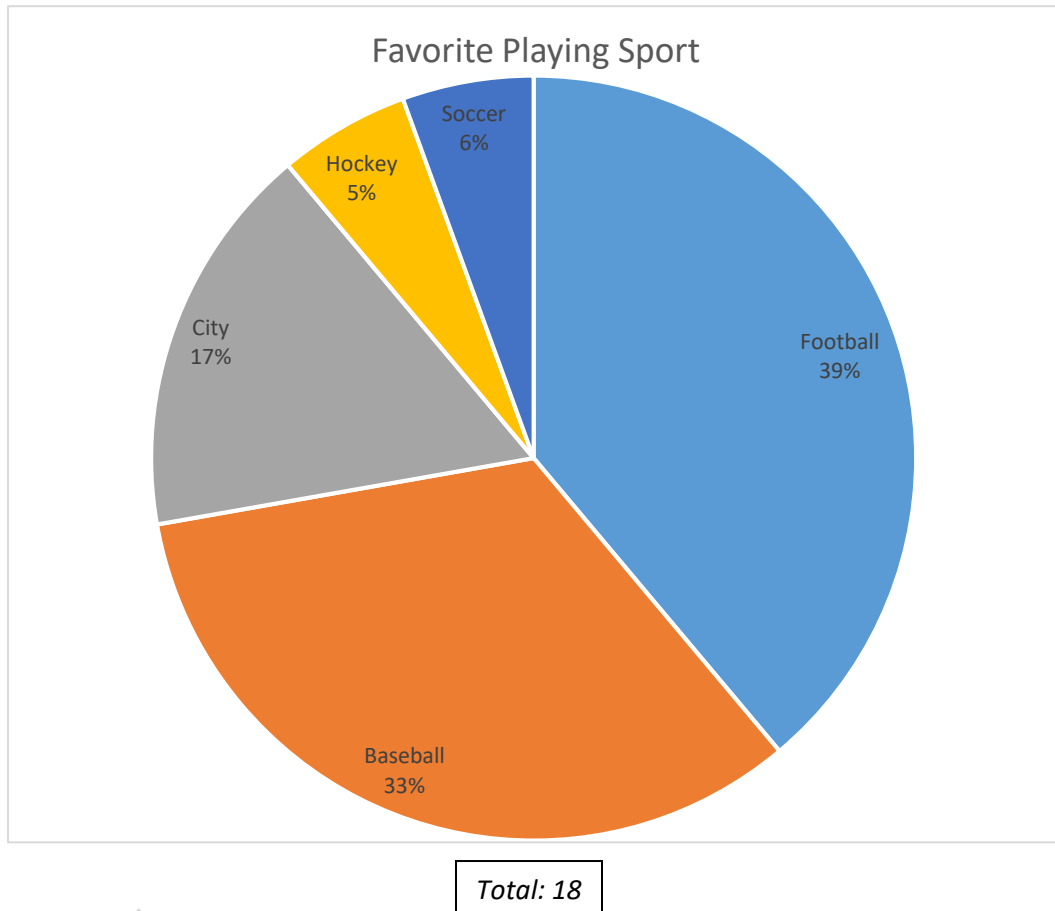

A: Go to the corner; it's 90° in there.

## **Riddle(2) of the week**

A man walks into a bar, orders a drink and starts talking to the bartender. During their conversation the customer learns that the bartender has 3 children. "How old are they?" asks the customer. "The product of their ages is 72." The bartender replied. "That is not enough information." The customer said. "If you go outside and look at the building number posted at the top of the door of the bar, you will see the sum of their ages." The bartender said. The man checked and returned to the bar. "That is not enough information." Said the customer. The bartender smiles and says "My youngest son just loves strawberry ice cream." The customer grins. "Now I know how old they are." How old are they and why?
